KanCare 3.0 Open Claims Resolution Log

KANCARE 3.0 CLAIMS RESOLUTION LOG

Changes in the Gainwell system are identified by 'system updated' or 'system corrected' in the Gainwell System Status column of the KanCare 3.0 Claims Resolution Log.
For system corrections or updates where the KanCare 3.0 Claims Resolution Log indicates reprocessing is pending, providers have the option to submit corrected claims to expedite reprocessing or to wait for claims to be reprocessed systematically.
If the system has not yet been corrected/updated, a date for reprocessing/adjusting claims will be determined once the system correction/update has been made.

Overpayments: Claim adjustments will begin within 90 days of the system being corrected/updated.
Underpayments: Resubmissions/adjustments will be completed on claims processed within 90 days of the system being corrected/updated.
Completed Items: Available in a separate document.
