

FEBRUARY 2022

KMAP GENERAL BULLETIN 22021

COVID-19 VEKLURY™ (Remdesivir) Antiviral Medication Coverage

Effective February 4, 2022, and retroactive to dates of service on and after December 23, 2021, HCPCS code J0248 for VEKLURY™ (remdesivir) antiviral medication will be covered when administered in an outpatient setting for ages 12 and older. Allowed provider type and specialty is Hospital/Acute Care (01/010).

In addition, HCPCS codes 96365 and 96366 must be used for administration. Coverage for J0248 code listed above is only approved when billing with diagnosis code U07.1 or J12.82.

For the most current and up-to-date information, please refer to Kansas Medical Assistance Program website [here](#).

Note: The effective date of the policy is December 23, 2021. The implementation of State policy by the KanCare managed care organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The **KanCare Open Claims Resolution Log** on the KMAP [Bulletins](#) page documents the MCO system status for policy implementation and any associated reprocessing completion dates once the policy is implemented.
