

MARCH 2022

KMAP GENERAL BULLETIN 22036

Maternal Depression Screening Coverage Update

Effective with dates of service on and after May 1, 2022, Maternal Depression Screening billing must be reported with another service when performed in a Rural Health Center (RHC) and/or a Federally Qualified Health Center (FQHC). Maternal Depression Screenings cannot be paid at an encounter rate if no other services are provided on the same day.

Note: The effective date of the policy is May 1, 2022. The implementation of State policy by the KanCare managed care organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The **KanCare Open Claims Resolution Log** on the KMAP [Bulletins](#) page documents the MCO system status for policy implementation and any associated reprocessing completion dates once the policy is implemented.
