

MAY 2022

KMAP GENERAL BULLETIN 22054

Coverage of Monoclonal Antibody Bepitelovimab

Effective with dates of service on and after February 11, 2022, monoclonal antibody Bepitelovimab will be covered under the COVID-19 Emergency Use Authorization (EUA) for ages 12 and older with the following codes:

Q0222	M0222	M0223
-------	-------	-------

For the most current and up-to-date information, please refer to Kansas Medical Assistance Program website [here](#).

Note: The effective date of the policy is February 11, 2022. The implementation of State policy by the KanCare managed care organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The **KanCare Open Claims Resolution Log** on the KMAP [Bulletins](#) page documents the MCO system status for policy implementation and any associated reprocessing completion dates once the policy is implemented.
