

JUNE 2022

## KMAP GENERAL BULLETIN 22069

### Hospital at Home Care Code Update

Effective with dates on and after July 1, 2022, revenue code 0161 and occurrence code 82 will be considered valid codes. Hospital at Home Care will not be a covered Kansas Medical Assistance Program (KMAP) service.

**Note:** The effective date of the policy is July 1, 2022. The implementation of State policy by the Kansas Medical Assistance Program (KMAP) will be delayed until April 4, 2022, and any denied claims will be identified and reprocessed. The **KanCare Open Claims Resolution Log** on the KMAP [Bulletins](#) page documents the MCO system status for policy implementation and any associated reprocessing completion dates once the policy is implemented.
