

KMAP GENERAL BULLETIN 22086

CMS PERM Review Process Completed

The Centers for Medicare and Medicaid Services (CMS) have completed the 2022 federal reporting year Program Measures Improper Payments (PERM) Review. The cycle end date was April 15, 2022.

The CMS review contractor, NCI Inc., received all requested medical documentation to substantiate claim payments made in State Fiscal Year (SFY) 2021 from the random selection of Kansas fee-for-service (FFS) providers.

The Kansas Department of Health and Environment (KDHE) would like to thank these providers for their participation and collaboration in the success of the RY22 PERM Review. KDHE values our provider relationships, and together, these partnerships will continue to be used as defense strategies against future challenges in the changing health care market.
