

JULY 2024

## KMAP GENERAL BULLETIN 24154

### Discontinue Applying Modifier TC to Base Code Billed by Hospitals

Effective with dates of service on and after August 1, 2024, any radiology service (70000-79999) billed by an outpatient hospital provider will no longer be auto plugged with a technical component (TC) modifier nor reimbursed at the TC rate if a base code is billed.

The radiology services will be reimbursed at the base rate if a base code is billed, and reimbursed at the modifier TC rate if a modifier TC is billed.

**Note:** The effective date of the policy is August 1, 2024. The implementation of State policy by the KanCare Managed Care Organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The KanCare Open Claims Resolution Log on the KMAP Bulletins page documents the MCO system status for policy implementation and any associated reprocessing completion dates once the policy is implemented.
