

DECEMBER 2025

**KMAP GENERAL BULLETIN 25272**

## **Early Refill Edit for Gabapentin and Pregabalin – Fee-for-Service**

Effective with dispensed date retroactive to August 12, 2025, the Point of Sale (POS) Early Refill validation for Gabapentin and Pregabalin will be changed from 80% to 90%. The Prospective Drug Utilization Review (ProDUR) alert will auto-deny when the same medication has been filled and less than 90% of days' supply has been used.

**Note:** Compounding powders will continue to be tracked with standard state defined criteria of 80% of days' supply for DUR early refill editing.
