

SEPTEMBER 2026

KMAP GENERAL BULLETIN 26136

Rate Changes for Physician-Administered Drugs – October 2026

Effective with dates of service on and after October 1, 2026, Medicaid rates for pure Healthcare Common Procedure Coding System (HCPCS) codes for physician-administered drugs (PADs) will be updated to reflect the Centers for Medicare & Medicaid Services (CMS) Medicare Part B rate updates.

Pricing guidelines for unlisted procedure code drugs will remain the same, Wholesale Acquisition Cost (WAC) based rate. Any HCPCS codes that pertain to drugs on the High Dollar Rare Disease Drug (HD RDD) Reimbursement List will follow the pricing in [General Bulletin 25274](#) for Managed Care Organizations (MCOs).

Should a Long-Acting Reversible Contraception (LARC) product have a price change, the updated price will be retroactive to that product's price change effective date.

Note: The effective date of the policy is October 1, 2026. The implementation of State policy by the KanCare Managed Care Organizations (MCOs) may vary from the date noted in the Kansas Medical Assistance Program (KMAP) bulletins. The **KanCare Open Claims Resolution Log** on the KMAP [Bulletins](#) page documents the MCO system status for policy implementation and any associated reprocessing completion dates once the policy is implemented.
