*Note:* Refer to the *HCBS Financial Management Services (FMS) Fee-for-Service Provider Manual* for criteria and information.

- Nursing Evaluation Visit
- Oral health services

*Note:* Refer to the *Dental Fee-for-Service Provider Manual* for criteria and information.

- Personal Emergency Response
- Enhanced Care Services

All HCBS FE waiver services require prior authorization through the plan of care (POC) process.

### **Enrollment**

All HCBS FE providers must enroll and receive a provider number for HCBS FE services. Contact the fiscal agent to enroll.

### **Documentation Using “Notes” in AuthentiCare Kansas**

Providers are expected to use the “notes” field in the AuthentiCare Kansas web application every time adjustments are made (time in/out or activity codes, for example). At a minimum, the following information needs to be included in the note:

- The person requesting the adjustment
- Specifically, what is being adjusted (clock in at 10:35 a.m. added, activity codes for bathing added and toileting removed, etc.)
- Reason for the adjustment (started shopping outside of home, forgot to clock in/out, etc.)
- If the adjustment was confirmed with the member

Updated 12/16

### Signature Limitations for All FE Services

In all situations, the expectation is that the member provides oversight and accountability for people providing services for them. Signature options are provided in recognition that a member's limitations make it necessary that they be assisted in carrying out this function. A designated signatory may be anyone who is aware services were provided. The individual providing the services **cannot** sign the time sheet on behalf of the member.

Each time sheet must contain the signature of the member or designated signatory verifying that the member received the services and that the time recorded on the time sheet is accurate. The approved signing options include:

- Member's signature
- Member making a distinct mark representing his or her signature
- Member using his or her signature stamp
- Designated signatory

In situations where there is no one to serve as designated signatory, the billing provider establishes, documents, and monitors a plan based on the first three concepts above.

Members who refuse to sign accurate time sheets when there is no legitimate reason should be advised that the personal care services worker's time may not be paid, or money may be taken back. Time sheets that do not reflect time and services accurately should not be signed. Unsigned time sheets are a matter for the billing provider to address.

### HIPAA Compliance

As a member in the Kansas Medical Assistance Program (KMAP), providers are required to comply with compliance reviews and complaint investigations conducted by the Secretary of the Department of Health and Human Services (HHS) as part of the Health Insurance Portability and Accountability Act (HIPAA) in accordance with section 45 of the code of regulations parts 160 and 164. Providers are required to furnish the Department of HHS all information required during its review and investigation. The provider is required to provide access to records to the Medicaid Fraud and Abuse Division of the Kansas Attorney General's office upon request from such office as required by K.S.A. 21-3853 and amendments thereto.

A provider who receives such a request for access to or inspection of documents and records must promptly and reasonably comply with access to the records and facility at reasonable times and places. A provider must not obstruct any audit, review or investigation, including the relevant questioning of employees of the provider. The provider must not charge a fee for retrieving and copying documents and records related to compliance reviews and complaint investigations.

### KMAP Audit Protocols

The [KMAP Audit Protocols](#) are available on the [Provider](#) page of the KMAP public portal under the *Provider Documents* heading.

## **7000. HCBS FE BILLING INSTRUCTIONS Updated 10/17**

### **Introduction to the CMS 1500 Claim Form**

Providers must use the CMS 1500 paper or equivalent electronic claim form when requesting payment for medical services provided under KMAP. Claims can be submitted on the KMAP secure portals, through Provider Electronic Solutions (PES), or by paper. When a paper form is required, it must be submitted on an original, red claim form and completed as indicated or it will be returned to the provider. The Kansas Modular Medicaid System (KMMS) uses electronic imaging and optical character recognition (OCR) equipment. Therefore, information is not recognized unless submitted in the correct fields as instructed.

Any of the following billing errors may cause a CMS 1500 claim to deny or be sent back to the provider:

- Sending a CMS 1500 Claim Form carbon copy.
- Sending a KanCare paper claim to KMAP.
- Using a PO Box in the Service Facility Location Information field.

An example of the CMS 1500 Claim Form and instructions are available on the KMAP [public](#) and [secure](#) portals under the Claims (Sample Forms and Instructions) heading of the Forms section of Provider Publications.

The fiscal agent does not furnish the CMS 1500 Claim Form to providers. Refer to **Section 1100** of the *General Introduction Fee-for-Service Provider Manual*.

### **Submission of Claim**

Send completed claim and any necessary attachments to:

KMAP  
Office of the Fiscal Agent  
PO Box 3571  
Topeka, Kansas 66601-3571

All claims for HCBS FE services, except oral health services, provided outside of licensed nursing, assisted living, residential health care, home plus, or boarding care facilities must be submitted through the EV&M system, AuthentiCare Kansas, web application.

## **7010. HCBS FE SPECIFIC BILLING INSTRUCTIONS Updated 10/17**

### **Client Obligation**

If a case manager has assigned a client obligation to a particular provider and informed this provider that they are to collect this portion of the cost of service from the client, the provider will not reduce the billed amount on the claim by the client obligation because the liability will automatically be deducted as claims are processed.

### **Overlapping Dates of Service**

The dates of service on the claim must match the dates approved on the POC and cannot overlap.

#### **Example:**

An electronic POC has two detail line items: the first line ends on the 15th of the month and the second line begins on the 16th with an increase of units. A claim with a line item for services dated the 8th through the 16th will deny because it conflicts with the dates that have been approved on the electronic POC. At this time, the claims system is unable to read two different lines on the POC for one line on a claim. For the first detail line item listed above (up to the 15th of the month), any service dates that fall between the 1st and the 15th of that month will be accepted by the system and not deny because of a conflict in the dates of service. Services for multiple months should be separated out and each month submitted on a separate claim.

### **Same Day Service**

For certain situations, HCBS services approved on a POC and provided the same day a member is hospitalized or in a nursing facility may be allowed. Situations are limited to:

- HCBS services provided the date of admission, if provided PRIOR to member being admitted
- HCBS services provided the date of discharge, if provided FOLLOWING the member's discharge
- Emergency Response Services

## 7020. HCBS FINAL RULE MONITORING AND COMPLIANCE Updated 06/24

Effective with dates of service on and after June 1, 2024, KMAP will establish the following compliance requirements of HCBS settings:

- The compliance requirements of providers and settings where individuals participating in HCBS programs receive their support and services.
- The processes and procedures by which the state shall conduct ongoing monitoring activities to ensure continued compliance of HCBS settings with 42 C.F.R. § 441.301(c)(4) and its subparts.

### Compliance Requirements for Providers:

The Final Rule's ongoing monitoring and compliance will be assessed based on the following billing codes:

S5101	S5102	S5125	T2016	T2021
-------	-------	-------	-------	-------

New providers enrolling with KMAP to render services under any of the service codes above, and further identified under the provider types and provider specialties (PT/PS) listed below, will need to present verification of HCBS Compliance Portal registration prior to completing the enrollment process.

Provider Type	Provider Specialty	Billing Codes Captured
55	363	S5125, S5126
55	364	T2016
55	365	S5125
55	367	S5125, S5126, S5160, S5161, T2025
55	410	S5101, S5102
55	510	S5125, S5130
55	520	T2020, T20201

Providers will be required to obtain annual certification from Kansas Department of Aging and Disability Services (KDADS) for each setting where the above codes are billed.

### Non-Compliance:

- KDADS will notify the MCO and provider when becoming aware of a non-compliant setting by issuing a corrective action plan (CAP) and indicating a date for the provider/setting to achieve compliance.
- In the event compliance is not achieved by the date set in the CAP, and an HCBS member is active and receiving services from the identified setting, a transition process must be immediately initiated following the KDADS HCBS Transition Policy:
  - Notification will be made by KDADS to the provider, MCO and KMAP; and will include a date that payment for services will no longer be authorized for the member(s) receiving services in the non-compliant setting.
  - KDADS, with the assistance of the Kansas Department of Health and Environment (KDHE), may request a post-payment review and recoup funds from the provider in the event transitions do not occur from non-compliant settings.

## **7020. HCBS FINAL RULE MONITORING AND COMPLIANCE Updated 06/24**

### **Recertification Criteria:**

1. Providers offering services that are not categorized as provider owned, managed, and/or controlled, which may be presumed to be compliant with the Settings Final Rule, shall undergo the presumed compliant screening every 365 days for each service presumed to be compliant.
  - a. The provider shall recertify in the event there is a change in service delivery.
  - b. A certificate showing the service delivery method is compliant shall be issued.
2. Providers of settings classified as provider owned, managed, and/or controlled, shall complete the HCBS Readiness Assessment for Residential/Day Services, and
  - a. Shall re-confirm that no changes have been made to the settings or its immediate surroundings every 365 days after the setting was issued compliance status.
  - b. A certificate showing the setting is compliant shall be issued.
  - c. If there have been changes to the setting or its immediate surroundings, then the changes may require the setting to complete a new HCBS Readiness Assessment for Residential/Day Services.

### Quality Assurance Procedures continued:

#### I. Remediation and Response Process

1. KDADS FISC shall generate and provide reports regarding findings to HCBS Program Managers for review and remediation as necessary.
2. CMS requires states to submit remediation language and a Quality Improvement Plan for any HCBS Performance Measure when the statewide average for a waiver is less than 86%. Therefore, KDADS shall complete data analysis to ensure that each quality assurance or sub-assurance of less than 86% is remediated. Further, CMS also requires the state to remediate any “non-compliant internally” (less than 100%) for a performance measure even though it may not be below the 86% threshold requiring the data analysis:
  - a) KDADS shall notify the MCO and assessing entity of quality assurance or sub-assurance below 86% with details of each finding.
  - b) KDADS shall notify the provider of each non-compliance with a performance measure.
  - c) Upon notification of the remediation requirement for quality assurance sub-assurance, or performance measures, providers must respond within 10 business days with a detailed plan for correction/remediation strategies and a timeline for completion.
  - d) KDADS staff shall review the received remediation plan for approval. If a remediation plan is not approved, KDADS shall notify the provider and request that acceptable remediation be resubmitted.
  - e) Once a remediation plan is approved with a timeline for compliance, KDADS will monitor for compliance.
3. KDADS shall immediately forward/report Abuse, Neglect, or Exploitation (ANE) issues to the designated state reporting agency.
4. KDADS FISC shall generate and provide reports regarding findings to HCBS Program Managers for review and remediation as necessary.
5. If QMS finds issues or concerns on a specific case during a review:
  - a) The issues or concerns shall be entered in QRT.

## 8400. BENEFITS AND LIMITATIONS Updated 05/19

### ADULT DAY CARE continued

The reimbursement for this service is defined as a range to allow flexibility and efficiency in service delivery, provide consistency with other Medicaid services such as home health aide visits, and meet member preferences in providers and service delivery methods. The member will be monitored through case management. This will ensure providers deliver the necessary scope of service as agreed and defined in the POC regardless of the length of time needed to deliver service.

### ADULT DAY CARE DOCUMENTATION REQUIREMENTS

For a service provided within a licensed nursing, assisted living, residential health care, or home plus facility, written documentation is required for services provided and billed to KMAP. Documentation, at a minimum, must consist of an attendance record. This record must include the following:

- Identify the waiver service being provided (Adult Day Care)
- Member's initials each visit if using an attendance record covering more than one day
- Member's name (first and last) and signature, at a minimum each week
- Name and signature of authorized staff member
- Date of service (MM/DD/YY)
- Start time for each visit, include AM/PM or use 2400 clock hours
- Stop time for each visit, include AM/PM or use 2400 clock hours

This record must be generated and maintained during the time frame covered by the document. Generating documentation after-the-fact is not acceptable. A sample of the HCBS FE Adult Day Care Log is on the KMAP [public](#) and [secure](#) portals and may be used to document HCBS FE services. Use of this specific form is not required, but it may be duplicated for your use.

Documentation must be clearly written and self-explanatory, or reimbursement may be subject to recoupment.

For a service provided in a licensed free-standing adult day care facility, documentation is required for services provided and billed to KMAP and must be collected using the EV&M system, AuthentiCare Kansas. Electronic visit verification documentation must, at a minimum, include the following:

- Identification of the waiver service being provided (Adult Day Care)
- Identification of the member receiving the service (first and last name)
- Identification of the authorized staff member

**Note:** For members who have been notified by their MCO to receive services under Expedited Service Delivery (ESD), the services must be documented following the written documentation requirements until the Medicaid determination is made. Upon determination of Medicaid and HCBS FE eligibility notification, services must immediately be documented through the EV&M system, AuthentiCare Kansas. Claims for services previously rendered must be manually entered into AuthentiCare Kansas to be confirmed and processed for payment.

- Purchase and installation of home modifications that improve mobility including, but not limited to, ramps, widening of doorways, bathroom modifications, and railings

### **ASSISTIVE TECHNOLOGY LIMITATIONS**

- All AT purchases require prior authorization from KDADS.

- Replacements and duplicate items shall not be covered for the first twelve months after the purchase date of the item.

**8400. BENEFITS AND LIMITATIONS Updated 08/24**

**UNBUNDLING ASSISTIVE SERVICES for HCBS WAIVERS**

Effective with dates of service on and after April 1, 2024, and in conjunction with the Kansas Legislature increasing the service limit for Assistive Services prior to the unbundling, Assistive Services will be replaced by three new services with distinct billing codes for the HCBS waivers specified in this policy. These services will be:

<b>Service</b>	<b>Billing Code</b>
Home and Environmental Modification Services (HEMS)	S5165
Vehicle Modification Services (VMS)	T2039
Specialized Medical Equipment and Supplies (SMES)	T2029

**This change applies to the following HCBS waivers:**

Intellectual and Developmental Disability (I/DD), Brain Injury (BI), FE, and Physical Disability (PD).

**Services:**

With guidance from the CMS HCBS Technical Guide, the new services unbundled from Assistive Services will be as follows:

**Home and Environmental Modification Services, Billing Code S5165**

Home and Environmental Modification Services (HEMS) are physical modifications to the member’s home based on an assessment designed to support the member’s efforts to function with greater independence and to create a safer, healthier environment. The need for HEMS adaptations shall be determined through the Person-Centered Service Plan (PCSP) and based on need related to the member’s disability.

This service may be substituted for Personal Services only when they have been identified as a cost-effective alternative to Personal Services on the member's PCSP. Members will have access to choose any qualified provider with consideration given to the most economical option available to meet the member's assessed needs.

This service is limited to those services not covered through the Medicaid State Plan, Early and Periodic Screening, Diagnostic and Treatment (EPSDT), and which cannot be procured from other formal or informal resources (such as Vocational Rehabilitation, Rehabilitation Act of 1973, or the Educational System). HCBS waiver funding is used as the funding source of last resort and requires prior authorization (PA) from the member's chosen KanCare MCO.

## **8400. BENEFITS AND LIMITATIONS Updated 08/24**

### **UNBUNDLING ASSISTIVE SERVICES for HCBS WAIVERS continued**

#### **Instance**

HEMS adaptations may include, but shall not be limited to, the following:

- Modifications to the environment
  - Installation of grab bars.
  - Construction of access ramps and railings.
  - Installation of detectable warnings on walking surfaces.
  - Alerting devices for member who has a hearing or sight impairment.
  - Adaptations to the electrical, telephone, and lighting systems.
  - Generator to support medical and health devices that require electricity.
  - Widening of doorways and halls.
  - Door openers.
  - Installation of lifts and stair glides (except for elevators), such as overhead lift systems and vertical lifts.
  - Bathroom modifications for accessibility and independence with self-care.
  - Kitchen modifications for accessibility and independence.
  - Alarms or locks on windows, doors, and fences; protective padding on walls, floors, or pipes; Plexiglass, safety glass, a protected glass coating on windows; outside gates and fences; brackets for appliances; raised/lowered electrical switches and sockets; and safety screen doors which are necessary for the health, welfare, and safety of the member.
  - Any home modifications not listed here but determined to be of remedial benefit to the member by a qualified healthcare provider.
- Training on use of HEMS.
- Service and maintenance of the modification.

To determine an economically viable option available to meet a member's assessed needs, the MCO shall evaluate the most cost-effective HEMS solution by completing a process that includes, but is not limited to, the following:

- Prior to authorizing HEMS, the MCO shall coordinate with other benefits the member may have, and only use HEMS as a last resort.
  - Waiver funding shall be the funding source of last resort and requires PA from the MCO via the member's PCSP.
- The MCO shall request an in-home or remote assessment of the member's needs and recommendations from a therapist or a person qualified to complete home usability/accessibility assessments.
  - This helps determine the options available for meeting the member's needs and which option may be the most cost-effective.
- The MCO will request bids for HEM services.
  - This process will not be completed where the MCO cannot find more than one provider/contractor to provide a bid.
- The MCO will review both the member's assessed needs and the received bids to ensure that items, materials, or services are within the scope of what is needed and covered and are not of extraordinary cost.

## **8400. BENEFITS AND LIMITATIONS Updated 08/24**

### **UNBUNDLING ASSISTIVE SERVICES for HCBS WAIVERS continued**

- The MCO shall choose the bid that is the most cost-effective and meets the member's needs as it relates to their disability.
- Certain conditions besides cost will determine if a bid is to be accepted.
  - The MCO will not accept bids solely based on the proposed cost.
  - Bids that do not meet the member's needs or are submitted by contractors with a history of low work quality will not be considered.
- A member that is a Tribe member may opt to be served through a federally recognized Tribal entity that does not wish to contract with the MCO or Financial Management Services (FMS) provider. In that case, the state shall provide a separate provider agreement which will allow the Tribal vendor to receive direct payment from Medicaid

### **Instructions and Limitations**

- Payment for HEMS alone, or in combination with Vehicle Modification Services (VMS) and SMES, shall not exceed \$10,000 per program member and across all waiver programs except the I/DD waiver which does not have a limit. I/DD Waiver members have no cap on this service.
- If a program member has exceeded the \$10,000 limit, and still has needs that may be furnished through HEMS, the MCO shall furnish such needs using an *'in lieu of other services'* approach, or using other value-added services provided by the MCO.
- Upon delivery to the member (including installation), the HEMS adaptation must be in good operating condition and repair in accordance with applicable specifications.

#### **Vehicle Modification Services, Billing Code T2039**

In HCBS waivers operated in Kansas, VMS are adaptations or alterations to a vehicle that is the member's primary means of transportation. Vehicle modifications are specified by the PCSP and are designed to accommodate the needs of the member and enable the member to integrate more fully into the community and to ensure the health, welfare and safety by removing barriers to transportation.

Reimbursement for this service is limited to the member's assessed needs related to the member's disability and based on the PCSP. Members will have the choice to choose any qualified provider with consideration given to the most economical option available to meet the member's assessed needs.

This service is limited to those services not covered through the Medicaid State Plan, EPSDT, and which cannot be procured from other formal or informal resources (such as Vocational Rehabilitation, Rehabilitation Act of 1973, or the Educational System). HCBS waiver funding is used as the last resort funding source and requires PA from the member's chosen KanCare MCO.

**The State cannot provide assistance with modifications on vehicles that are not registered under the member or legally responsible parent of a minor or other primary caretaker.**

#### **Instances**

To determine an economical viable option available to meet a member's assessed needs based on needs related to disability, the MCO shall evaluate the most cost-effective VMS solution by completing a process that includes, but is not limited to, the following:

- Prior to authorizing VMS, the MCO shall coordinate with other benefits the member may have and only use VMS as a last resort.
  - Waiver funding shall be the last resort's funding source and requires PA from the MCO via the member's PCSP.

- The MCO will review both the member's assessed needs and the received bids to ensure that items, materials, or services are within the scope of what is needed and covered and are not of extraordinary cost.
- The MCO will proceed to choose the bid that is the most cost-effective and meets the member's needs.
- Certain conditions besides cost will determine if a bid is to be accepted.
  - The MCO will not accept bids solely based on the cost proposed.
  - Bids that do not meet the member's needs or are submitted by contractors with a low work quality history will not be considered.

### **PERSONAL CARE SERVICES**

There are two methods of providing Personal Care Services, provider-directed and self-directed. Members are given the option to self-direct their Personal Care Services. A combination of service providers and types of Personal Care Services, either provider-directed and/or self-directed, may be used to meet the approved POC.

#### **PROVIDER-DIRECTED PERSONAL CARE SERVICES**

Personal Care Services provide supervision and/or physical assistance with instrumental activities of daily living (IADLs) and activities of daily living (ADLs) for members who are unable to perform one or more activities independently (K.S.A. 65-6201). Personal Care Services may be provided in the member's choice of housing, including temporary arrangements. This service shall not duplicate other waiver services.

There are three levels of provider-directed Personal Care Services, which are referred to as Level I, Level II, and Level III. A combination of Level I (Services A & B) and Level II (Services C & D) can be used in the development of the POC. If a combination of Level I and Level II services are included in the POC, the Level II rate shall be paid if both levels of care are provided by the same provider. Level III will be used in the development of the POC for those members residing in adult care homes. For boarding care homes, the tasks authorized on the POC must fall within the licensing regulations.

A personal care services worker who is a certified home health aide or a certified nurse aide must not perform any health maintenance activities without delegation by a licensed nurse. ### PERSONAL CARE SERVICES continued

#### LIMITATIONS

- Personal care services workers must be 18 years of age or older.
- A member who has a guardian and/or conservator cannot choose to self-direct his or her Personal Care Services; however, a guardian and/or conservator can make that choice on the ward's behalf.
- A guardian, conservator, person authorized as an activated DPOA for health care decisions, or individual acting on behalf of the member cannot choose himself or herself as the paid personal care services worker. If the designation of the appointed representative is withdrawn, the individual may become the member's paid personal care services worker after the next annual review or a significant change in the member's needs occurs prompting a reassessment.

**EXCEPTION to this limitation:** Members who were active on any HCBS waiver prior to July 1, 2000, and have had the same representative continually directing their care during that time, are exempt from this limitation. The MCO shall complete a home visit at least every three months to ensure that the selected personal care services worker is performing the necessary services.

- While a family member may be paid to provide Personal Care Services, a member's spouse will not be paid to provide Personal Care Services unless one of the following criteria from K.A.R. 30-5-307 are met and prior approval received from the KDADS TCM program manager:
  - Three HCBS provider agencies furnish written documentation that the member's residence is so remote or rural that HCBS services are otherwise completely unavailable.
  - Two health care professionals, including the attending physician, furnish written documentation that the member's health, safety, or social well-being would be jeopardized. (Documentation must contain how or in what way the member's health, well-being, safety, or social well-being would be jeopardized.)
  - The attending physician furnishes written documentation that, due to the advancement of chronic disease, the member's means of communication can be understood only by the spouse.
  - Three HCBS providers furnish written documentation that delivery of HCBS services to the member poses serious health or safety issues for the provider, thereby rendering HCBS services otherwise unavailable.
- The MCO and the member or his or her representative will use discretion in determining if the selected personal care services worker can perform the needed services.
- Covered ADL and IADL services are limited as defined within the CSW and approved POC.
- Personal Care Services is limited to a maximum of 48 units (12 hours) per day of any combination of provider-directed Level I, provider-directed Level II and self-directed.

## **8400. BENEFITS AND LIMITATIONS Updated 10/17**

### **COMPREHENSIVE SUPPORT**

Comprehensive Support is one-on-one, nonmedical assistance, observation, and supervision provided for a cognitively impaired adult to meet his or her health and welfare needs. The provision of comprehensive support does not entail hands-on nursing care: the primary focus is supportive supervision.

The worker is present to supervise the member and to assist with incidental care as needed, as opposed to personal care services which is task specific. Leisure activities (for example, reading mail, books, and magazines or writing letters) may also be provided. Comprehensive Support may be provided in the member's choice of housing, including temporary arrangements.

This service shall not duplicate other waiver services.

There are two methods of providing Comprehensive Support, provider-directed and self-directed. Members are given the option to self-direct their comprehensive support. A combination of service providers, either provider-directed and/or self-directed, can be used to meet the approved POC.

The member's representative is given the option to self-direct the member's Comprehensive Support. He or she may be an individual acting on behalf of the member, a person authorized as an activated DPOA for health care decisions, a guardian, or a conservator. If the representative chooses to self-direct comprehensive support, he or she is responsible for making choices about Comprehensive Support, including referring for hire, supervising and terminating the employment of personal care services workers; understanding the impact of those choices; and assuming responsibility for the results of those choices.

Refer to the *HCBS Financial Management Services (FMS) Fee-for-Service Provider Manual* for additional information on responsibilities.

### **COMPREHENSIVE SUPPORT LIMITATIONS**

- Comprehensive Support is limited to the member's assessed level of service need, as specified in the member's POC, not to exceed 12 hours per 24-hour time period, subject to an exception process established by the State. All members are held to the same criteria when qualifying for an exception, in accordance with the established KDADS policies and guidelines.
- Personal care services workers must be 18 years of age.
- Comprehensive Support is limited to a maximum of 48 units (12 hours) a day to occur during the member's normal waking hours. Comprehensive Support in combination with other FE waiver services cannot exceed 24 hours a day.
- A member who has a guardian and/or conservator cannot choose to self-direct his or her Comprehensive Support; however, a guardian and/or conservator can make that choice on the member's behalf.
- Under no circumstances shall a member's spouse, guardian, conservator, person authorized as an activated DPOA for health care decisions, or an individual acting on behalf of a member be paid to provide Comprehensive Support for the member.

## **8400. BENEFITS AND LIMITATIONS Updated 07/24**

## **8400. BENEFITS AND LIMITATIONS Updated 10/17**

### **HOME TELEHEALTH**

Home Telehealth is a remote monitoring system that enables the member to effectively manage one or more diseases and catch early signs of trouble so intervention can occur before the member's health declines. The provision of Home Telehealth involves member education specific to one or more diseases (e.g. COPD, CHF, hypertension, and diabetes), counseling, and nursing supervision.

- Home Telehealth automates disease management activities and engages members with personalized daily interactions and education to build and expand their self-management behaviors. The service will enable telehealth providers, after determining the member's progress, to motivate behavior changes through user-friendly technology, helping members meet goals for improved compliance with diet, exercise, medication, medical treatments, and self-monitoring of conditions to lower healthcare costs.
- Remote Monitoring Technology could include, but is not limited to, a cardiac telemonitoring system, vital sign telemonitoring system with teleconsultation and/or touchscreen, vital sign telemonitoring mattress, web applications, and phone applications.
- The service benefits are to improve the member's ability to meet goals for improved compliance with diet, exercise, medication, medical treatments, and self-monitoring of conditions and to lower healthcare costs.
- The technology is located in the member's home, in an area appropriate for the specific technology being used (e.g. a telemonitoring mattress in the bedroom, a web application on the member's own computer or device provided specifically for the monitoring).
- Telemonitoring services supplement rather than replace face-to-face physician visits and are scheduled with the member's provider. If the member requires general supervision and protective oversight or overnight staff support, provisions are made in the member's Integrated Service Plan of Care (ISPOC).
- The provider accesses the telehealth system to review each member's baseline (defined by the member's physician at enrollment and indicated in the ISPOC), trended survey responses, and vital sign measurements. A licensed nurse monitors the health status of multiple members and is alerted if vital parameters or survey responses indicate a need for follow-up by a healthcare professional.
- Telehealth services are provided on an individualized basis for members who have an identified need in their ISPOC. Member options and information are provided and discussed during the development of the ISPOC.
- Monitoring is initiated by the member. The member has full control over the equipment to maintain his or her right to privacy.

## **8400. BENEFITS AND LIMITATIONS Updated 10/17**

### **HOME TELEHEALTH continued**

- The member must be trained on how to use the designated equipment by the provider and/or equipment supplier. Equipment examples could include items such as a cardiac telemonitoring system, vital sign telemonitoring system with teleconsultation and/or touchscreen, vital sign telemonitoring mattress, web applications, and phone applications.
- The provider must ensure ongoing member education specific to one or more diseases, counseling, and nursing supervision. Education must include topics such as symptoms to report, disease processes, risk factors, and other relevant aspects relating to the disease(s).
- A member can qualify for this service if either of the following apply:
  - The member is in need of disease management consultation and education AND has had two or more hospitalizations, including emergency room (ER) visits, within the previous year related to one or more diseases.
  - The member is using MFP to move from a nursing facility back into the community.
- HCBS FE Home Telehealth services are not a duplication of Medicare/Medicaid telehealth services.
  - Even though the Kansas legislature calls this service “home telehealth”, the actual service follows the CMS telemonitoring definition which Medicare does not cover. HCBS FE Home Telehealth is a daily monitoring of the member's vital sign measurements from the member's home setting to attempt to divert a crisis episode, whereas Medicare telehealth includes specific planned contacts for professional consultations, office visits, and office psychiatry services, usually through video contact.
  - During the MCO development of the ISPOC approval process, the MCO will confirm there is no prior authorization for Medicaid home telehealth skilled nursing visits. If a prior authorization is identified, the HCBS FE Home Telehealth services will be denied.
- A backup plan must be documented in the member's ISPOC in case of equipment malfunction. A response time must be included in the backup plan to avert any potential crisis situation.
- The services delivered through telemonitoring must comply with applicable state and federal laws related to the member's right to privacy.
- Members will be provided choice by the MCO care coordinator during the development of the member's service plan.

### **NURSING EVALUATION VISIT**

A Nursing Evaluation Visit is different from the initial assessment that is used to develop the POC. A Nursing Evaluation Visit is a service provided only to members that receive Level II Personal Care Services through a home health agency, assisted living facility, residential health care facility, or other licensed entity. A Nursing Evaluation Visit is conducted by an RN employed by the provider of Level II Personal Care Services. During the Nursing Evaluation Visit, the RN determines which Personal Care Services worker may best meet the needs of the member and any special instructions/requests of the member regarding delivery of services. This service includes an initial face-to-face evaluation visit by an RN, one time, per member, per provider. The following Level II Personal Care Services Health Maintenance Activities require an initial Nursing Evaluation Visit:

- Vital signs monitoring
- Supervision and/or training of nursing procedures
- Ostomy care
- Catheter care
- Enteral care
- Wound care
- Range of motion activities
- Changes in functions or condition reporting
- Medication administration and assistance

### **NURSING EVALUATION VISIT LIMITATIONS**

- A Nursing Evaluation Visit will need to be completed for a member to access provider-directed Level II Personal Care Services Health Maintenance Activities.
- If a member chooses a home health agency that has provided nursing services to the member in the past and the agency is already familiar with the member's health status, a nursing evaluation visit is not required.
- This service must be provided by an RN employed, or a self-employed RN contracted, by the Personal Care Services Level II provider.

## **8400. BENEFITS AND LIMITATIONS Updated 12/16**

### **ENHANCED CARE SERVICES**

Enhanced Care Services (ECS) are available to a member who demonstrates an assessed need for a minimum of six hours of sleep support within a 24-hour period. The assessed need cannot be met by the use of a Personal Emergency Response System (PERS), informal support, or any other service such as Personal Care Services (PCS).

#### **ECS can be provided as a self-directed or agency-directed service.**

- Self-directing members or designated representatives are responsible for hiring, supervising, and terminating the employment of the PCS worker, understanding the impact of those decisions, and assuming responsibility for the results of those decisions.
- Self-directing members and agencies employing ECS workers shall comply with applicable state and federal employment laws.
- Self-directing members employing ECS workers are subject to the same quality assurance standards as other ECS providers including, but not limited to, completion of the tasks identified on the Integrated Service Plan (ISP).

#### **ECS is designed to provide supervision and/or non-nursing physical assistance during a member's normal sleeping hours in his or her place of residence.**

- ECS must be provided in the member's home or HCBS setting as approved and authorized on the ISP. Service providers must remain in the member's home for the duration of this service provision based on the member's normal sleep cycle as documented in the member's ISP.
- The ECS worker must be able to be awakened and available to provide immediate supervision or physical assistance with tasks such as toileting, transferring, mobility, and medication reminders as needed.
- The ECS provider must be able to be awakened and capable of contacting a doctor, hospital, or medical professional in the event of an emergency.
- ECS is intended to provide support during a member's normal sleep cycle and may include non-nursing help with tasks such as toileting and mobility.

#### **Members in state custody cannot receive ECS.**

Refer to the *HCBS Financial Management Services (FMS) Fee-for-Service Provider Manual* for additional information on responsibilities.

### **ENHANCED CARE SERVICES LIMITATIONS**

- Only one unit (a minimum of six hours) is allowed within a 24-hour period.
- ECS, in combination with other HCBS services, cannot exceed 24 hours within a 24-hour period.
- ECS must not be authorized when a member resides in an ALF, RHCF, residential care facility (RCF), home plus, boarding care home, or residential supports for an individual with an intellectual and developmental disability (I/DD) that the member has selected as a provider.

## **8400. BENEFITS AND LIMITATIONS Updated 10/17**

### **ENHANCED CARE SERVICES continued**

- Reimbursement of this service is provided as a flat rate. It is the responsibility of the employer to ensure adherence to all applicable labor regulations.
- Only one ECS worker can be paid for services at any given time of the day. In order to prevent payment for overlapping services, ECS workers must not be paid for services when another HCBS program service is being provided on the same time on the same day. For example, an ECS worker cannot provide services while a member is receiving PCS or is in therapy. The only exception is when justification for a two-person lift or transfer is documented on the ISP as necessary to meet the health and welfare needs of the member.
- ECS workers must not work or be paid for providing ECS, PCS, or any other HCBS program service for multiple HCBS program members at the same time.
- ECS must not duplicate any personal care services provided through the HCBS program, Medicaid State Health, third-party entity, informal supports, or by any other method.
- ECS is provided as a crisis exception service if the member meets five of the six criteria below:
  - Lacks family or friends within close proximity to provide informal supports.
  - Has Adult Protective Service confirmation of self-neglect or abuse.
  - Lives in a rural or frontier area that is either more than 50 miles from any provider or the member lives alone.
  - Has a severe cognitive impairment.
  - Is in the end stages of an illness and is receiving hospice care.
  - Scores a “4” in toileting, transferring, medication management and treatment, and walking and mobility.
- No person residing in the same residence shall be paid to provide ECS unless an exception is identified and authorized by the MCO to mitigate risk of institutionalization, and the exception is documented on the ISP in accordance with appropriate limitations and exception.
- ECS cannot be provided by a member’s legally responsible person (spouse or parent of a minor child) or any individual residing in the home with the member. However, exceptions may be authorized under one or more of the following conditions in accordance with the approved HCBS waivers:
  - The member lives in a rural area, in which access to a provider is beyond a 50-mile radius from the member’s residence, and the relative or family member is the only provider available to meet the needs of the member.
  - The member lives alone and has a severe cognitive impairment, physical disability, or intellectual disability.
  - The individual has exhausted other support options by the MCO and without ECS would be at significant risk of institutionalization.

### **ENHANCED CARE SERVICES EXCEPTION TO LIMITATIONS**

#### **Conflict of Interest Policy**

- A conflict of interest exists when the person responsible for developing the ISP to address functional needs is also a legal guardian, DPOA, or designated representative and that person is also a paid caregiver for the member. Federal regulations prohibit the individual who directs services from also being a paid caregiver or financially benefitting from the services provided to an individual (42 CFR 441.505, as amended).

  - A certified home health aide or certified nurse aide shall not perform acts beyond the scope of their curriculum without delegation by a licensed nurse.

- Health maintenance activities and medication administration and assistance are authorized, in writing, by a physician or licensed professional nurse.
- The member’s failure to properly supervise or direct health maintenance activities delegated to the member by a physician or licensed professional nurse could result in the termination of self-direction for those activities.

### **Medication Administration and Assistance**

- Provided in a licensed facility
  - Any resident may self-administer and manage medications independently or by using a medication container or syringe prefilled by a licensed nurse or pharmacist or by a family member or friend providing this service gratuitously, if a licensed nurse has performed an assessment and determined that the resident can perform this function safely and accurately without staff assistance.
  - Any resident who self-administers medication may select some medications to be administered by a licensed nurse or medication aide. The negotiated service agreement shall reflect this service and identify who is responsible for the administration and management of selected medications.
  - If a facility is responsible for the administration of a resident’s medications, the administrator or operator shall ensure that all medications and biologicals are administered to that resident in accordance with a medical care provider’s written order, professional standards of practice, and each manufacturer’s recommendations.
